is it possible to convert them to use.gif? A: I don't know what kind of software you are using (this depends on the format of the microstation file), but you should have a look at imagemagick. I have used it with both microstation files and gif-files before and it should work with your files as well. download imagemagick run convert microstation.zip -resize 100% -swap black.png black\_thumb.png btw: you could put these in a shell script and use an alias. Report: Arizona shifts towards Biden | Biden prepares for drive-in town hall | New Biden ad targets Latino voters FBI chief says Russia is trying to interfere in election to undermine Biden MORE in the Democratic presidential primary, according to a new poll. ADVERTISEMENT Forty-five percent of likely Democratic voters said they would vote for Sanders and 44 percent said they would vote for Clinton. Sixteen percent said they would vote for Martin O'Malley and 3 percent said they would vote for Lincoln Chafee. The NBC News/Wall Street Journal/Marist poll showed that Sanders would win the Iowa caucuses in a blowout victory, with a nearly 2-1 lead over Clinton. But Clinton would win the New Hampshire primary, according to the poll. "Hillary Clinton does better in Iowa, so it's a little easier for her, but it's a huge blowout in New Hampshire," said Lee Miringoff, director of the Marist College Institute for Public Opinion. "New Hampshire has always been a favorite of hers." Clinton led the primary race in New Hampshire by a margin of 38 percentage points. But her lead has shrunk considerably since the fall, and she now trails Sanders in the Granite State by a margin of 45 percent to 38 percent, with Clinton only slightly ahead 82157476af
